

# Central de Ciclo Combinado ISCC Hassi R'Mel (Argelia)

## Cliente/customer

**Abengoa** es una empresa tecnológica que aplica soluciones innovadoras para el desarrollo sostenible en los sectores de infraestructuras, medio ambiente y energía, aportando valor a largo plazo a sus accionistas desde una gestión caracterizada por el fomento del espíritu emprendedor, la responsabilidad social, la transparencia y el rigor.

## ABENER

## **ABENER**

Abengoa is a technology company that applies innovative solutions for sustainable development in the infrastructure, environment and energy sectors; adding long-term value for our stockholders through the encouragement of entrepreneurship, social responsibility, as well as transparency and efficiency in management.

## Ingeniería/Engineering

IDOM es una empresa líder en servicios profesionales de Ingeniería, avalada por una experiencia que se remonta a 1957, año de su fundación.

La fortaleza distintiva de IDOM consiste en la perspectiva global con que realiza sus proyectos industriales. Este planteamiento permite acometer cualquiera de las dimensiones planteadas por el cliente: financieras, técnicas, de seguridad, ambientales, estéticas, de comunicación, etc; y sólo es posible gracias a la colaboración de ingenieros, arquitectos y consultores.

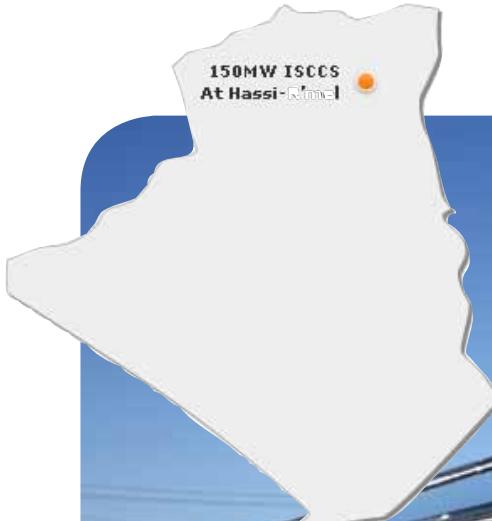

## Idom

## **idom**

IDOM is a leading company in professional services of Engineering, supported by an experience that goes back to 1957, year of its foundation.

IDOM's distinctive strength consists of the global perspective with which develops the industrial projects.

This approach allows to undertake any of the dimensions raised by the client (finance, technology, safety, environment, aesthetic, communication, etc.), and is possible thanks to the collaboration of engineers, architects and consultants.

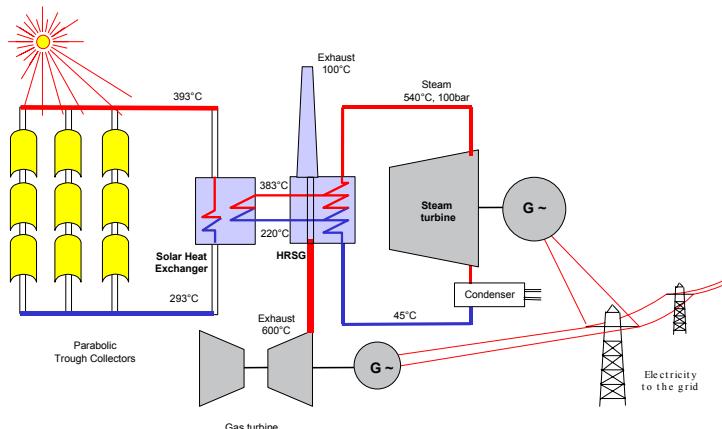

## Descripción del proyecto

### CENTRAL DE CICLO COMBINADO SOLAR INTEGRADO HASSI R'MEL

Planta híbrida de ciclo combinado-solar de 150MW, de los cuales 20 MW proceden de un campo de colectores cilindro-parabólico con aceite térmico (HTF).

## Clave del éxito

Las claves del éxito de este proyecto residen, fundamentalmente, en la capacidad de Saidi para realizar un asesoramiento técnico que permite, en cada caso, cumplir con los requisitos del cliente.

| HOJA DE PROYECTO   |   |               |                       |
|--|---|---------------|-----------------------|
| CENTRAL DE CICLO COMBINADO SOLAR INTEGRADO (HASSI R'MEL)   |   |               | POWER                 |
| Cliente final  | UTE ABEER HASSI R'MEL CONSTRUCTION  | Ingeniería    | Idom                  |
| Localización   | Hassi R'Mel (Argelia)   | Fecha         | 2009/2010             |
| TIPO DE VALVULA  | RATING  | DIAMETRO      | MATERIALES            |
| CGR  | 150/300/600/800/1500LBS   | 1/2" - 12"    | Acero Carbono e Inox. |
| Bola   | 1000WOG, PN40, 150LBS   | 1/2" - 2 1/2" | Acero Carbono e Inox. |
| Mariposa   | PN16  | 2" - 16"      | Fundición Nodular     |
| Seguridad  | 150/300LBS  | 1" x 2"       | Fund. Nodular         |
| Otras  | Control (150/300/600/1500/2500LBS) y Diafragma PN10 1/2" a 10" en Ac. Carbono e Inox. |               |                       |
| Notas  |   |               |                       |
| Instrumentación  | -   | Sellado       | -                     |
| Claves de éxito  |   |               |                       |
| <ul style="list-style-type: none"> <li>- Project management</li> <li>- EPC-Global Partner</li> <li>- Industry Solution Experience</li> </ul> |   |               |                       |

## Project summary

### HASSI R'MEL INTEGRATED SOLAR COMBINED CYCLE

Plant hybrid solar combined cycle 150MW, of which 20 MW from a field of parabolic trough collector with hot oil (HTF).

## Keys to success

The keys to the success of this project lies primarily on the ability to perform a Saidi expertise that allows, in each case, meet customer requirements.

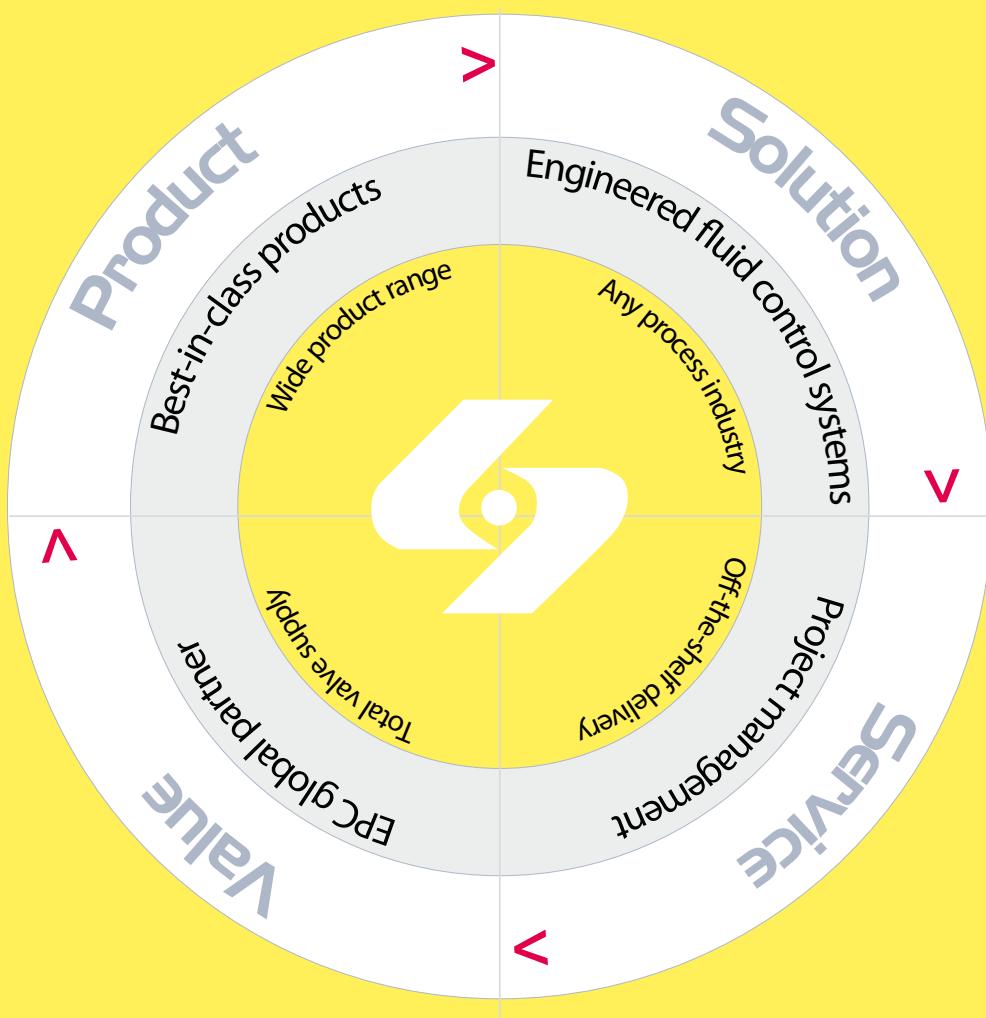

| PROJECT DATA SHEET                          |  |               |                            |
|---|--|---------------|----------------------------|
| HASSI R'MEL INTEGRATED SOLAR COMBINED CYCLE |  |               | POWER                      |
| End user                                    | UTE ABENER/HASSI R'MEL CONSTRUCTION  | Engineering   | Idom                       |
